

ROCK-POND REPORTS

Patient Information & Census

Census Summary	1156s
Active Patients by Physician	1040bz
Active Patients w/ no Delivery in X	1039
Patient & Order Data	1023d

Having a handle on your active patient census is critical to your success. Rock-Pond reports can give you accurate information sorted by Therapy, Payor and many other metrics.

Patient Census by Therapy

C2_1156s

An accurate patient census often is hard to find because of the intricacies of the system. Being able to view all patients, by therapy and payor type on one screen gives you a better picture of your patient load.

Patients with Active Orders - Summary

Primary Order Count - Totals show Patient Count

Pa

No therapy assigned.

Total	208	3	294	41	42	158	70	1	10	805

Patients on multiple therapies counted in each therapy type.

Counts the patient only once in the total.

How to Use This Report:

This report shows patient counts for therapy types grouped by payor type and site name. Therapy Type, Payor Type, and Site totals are included..

Benefits:

Used to track census for individual therapy types and payor types.

Active Patients by Physician

C2_1040bz

On-call personnel must have accurate census information. Phone numbers and physician information must be readily available. Printing out a couple of pages of patient information for the staff to take home at night can save time and provide critical information.

How to Use This Report:

Run this report for on-call staff to have vital patient information available after hours.

Benefits:

Provides needed physician and patient information to on-call staff.

Active Patients w/ No Delivery in X Days

c2_1039z

Census information can easily lose its value when patients remain "active" after therapies have ceased. It is helpful to see what patients have not received deliveries within so many days to determine if they need to be inactivated.

How to Use This Report:

Provides a list of patients who are active or on hold and have not had a delivery in a specified number of days. The report is sorted by the type of pump assigned to the patient on the Med. Info tab in the patient information screen. .

Benefits:

Run this report daily monthly to clean up your census. Also used to identify inactive patients who need to have their pump picked up.

Patient & Order Data

c2_1023d

Often times you need to see an overview of patient information. In CPR+ there are 11 screens with patient information, which makes it difficult to verify input.

Quick overview of patient information.

Mobile, AL 36604 Bay Minette, AL 36507 251-937-1888 07550

How to Use This Report:

Based on the MRN number, lists patient, insurance, authorization, diagnosis, physician and order data for a patient.

Benefits:

Used as a quick reference for patient and order information. This is especially useful when loading patients into the system and you need to validate the accuracy and completeness of the information loaded.

ROCK-POND REPORTS

Rock-Pond has hundreds of reports to help you address specific problems. Just tell us...

- **What are you having to do manually now?**
- **Is your Census correct, or do you know?**
- **Where are the frustrations?**

CONSULTING

Rock-Pond Solutions offers a broad range of consulting services to address the business problems and challenges faced by home infusion providers.

SOLUTIONS

Our customers face many of the same challenges and opportunities. When we systematize a process to solve a common problem, we market it as a solution, saving time and money and delivering predictable results.
